

Objectives:

- Measure details about the tunnel's sizes and depths
- Familiarize myself with modeling gravity in python
- Determine expected survey parameters (station spacing, observation times) for next lab

Team: Entire Class

We will be walking in Tunnel 1.  
There is roughly 1 mile of Tunnels on the Mines campus.

Safety Considerations:

- Pipes hot to the touch
- Cramped spaces
- Fiberglass coatings

Manhole offset: 27 cm

Offset of Tunnel 1-Tunnel 2: 1.37 m

~~Height T2: 1.595~~
